2 CAT POOPS IN OLD MAN JENKINS' BOOT!!

Cats usually like to play around with old people, but this cat likes to poop in their shoes, smile, then walk away as if nothing happened. FBI is on the case and the resolution of this conflict will be published.

Do Cats Make Poop Or Do They Eat It ???!!

Cats Make the Stink Line and dump the story line !!

Frisky the 5-year-old cat decides it's funny to make a cat poop in a human toilet, but the thing she doesn't know is that by the time she's done she'll obviously fall in the toilet. Frisky used to be a little white baby kitty, and then quickly changed color. As a baby she wasn't the meanest cat, nor the nicest. When she was being held on her owner's chest, waiting for her KMR (Kitty Milk Replacement), she thought it was funny to poop on her owners chest. That day the owner vowed to never hold that kitty on top of himself again!!

Cat Lover or Cat Seller ???!!

Ben Johnson has 26 cats with anti-viral diseases, and is selling them for a profit!! He looks like he loves cats, but in reality he hates them. Police say that it is illegal and should be stopped immediately. What will come of this for future cat generations?

Cat Violations !!

How can people live in such a world filled with stupid people?

Cats and their stinky farts.

Are they deadly, painful or

both ?!?!?!?!?

Cat Farts vs. Human Farts

When it comes to farts and their stink, children win, but when it's cats there's no stopping them from releasing those stinky fumes !!!

Cats and their farts are usually not up for comments, but we took this subject to the streets to see what people think! "Cat farts are the worst, they drive you mad," says local policeman. "Cat farts are amazing and are nature's air freshener with chicka pae," says Nell. "We are working on an injection that will reduce cat farts 10 fold," said Dr. Edma Watkins of the Miami-Dade Animal Shelter. Not only did we figure out that cat farts are really stinky, but we also figured out that there are many weird people with weird ideas on the streets!!

***Can cats have aneurisms while on the can?
Stay tuned and find out next week!!!***

Do cats and humans have things in common ????

Cats can now use computers, and fart as bad as a pre-kindergartener. Can this be the end of mankind??? Cats have six senses now!! The sixth is the paranormal sense that humans can't have. Cats are even making their paws three times bigger just to hold a mouse. What can come out of this?
